

## Under Construction

No Doubt

His accent serenades me and presses at the door  
Broken promise to be around for my mind war  
And my accomplishment's interrogating me  
Today's become tomorrow before I wanted it to be  
And desperate discussions  
The start of the destruction  
Our sign, in my mind  
I'll be fine  
I'll be fine

'Cause I'm under construction everyone  
So you'll have to mind the mess  
I'm under some construction

I always had to try harder, I never really could keep up  
Sitting in the corner with my illness and bad luck  
But in this humble place I'm feeling like red wine  
And I hope to get better with some time  
I'll be fine  
With some time  
I'll be fine

'Cause I'm under construction everyone  
So you'll have to mind the mess  
I'm under some construction

Construction  
Modification  
Motivation  
Of construction

And the rituals that soothe and disgust me will be gone  
With some time  
I'll be fine  
With some time  
I'll be fine  
I'll be fine

I'm under construction everyone  
So you'll have to mind the mess  
I'm under some construction  
I'm under construction everyone  
So you'll have to mind the mess  
I'm under some construction  
Under construction  
Construction  
Feel better with some construction
