

## Don't Pass Me By

## No Fun At All

I am what I am what I am what I am what I am what I am  
What I am what I am  
I am what I am what I am what I am what I am  
What I am what I am

I overheard your conversation in the night  
It seemed to me that everything you said was right  
I know that you have seen the tragedy of life  
I can't control myself, don't try to pass me by  
Don't ever try to pass me by
