

Never Ending Stream

No Fun At All

I can turn this shit to gold
Sitting here within the one single cell of my own
Looking at the flipping coins
Trying to find the crucial points
Hey Tormento be gone

Tell me you believe me and I swear
That anything you want, will be yours
When I find the never ending stream
I will be hard to bring to a halt, to a halt

I can tell you this and that
And you won't believe me when the chemistry talks
Anything will take me in mercury
Will make me sing hey it's all in the stone
