

Should Have Known

No Fun At All

You say
It's time to make a stand and make a clean sweep of this world
You say
It's time to understand if you don't shout you won't be heard

Never got a minute
Just to take it easy
Always so busy in you're ideology
Looking in your filofax
If there is some time you can spend with me

Standing on the corner
Waiting for you lonely
Hoping you'll come alone
You were at a meeting
Or a demonstration
Trying to save the earth

I should have known
Should have known

You say
You've got a few demands and those responsible will pay
You say
It's time to for reprimands and no one's gonna get away
