

When The Time Comes

No Fun At All

Saw you through a telescope
Saw you undressing
Couldn't reach you and I couldn't touch
My eyes caressing
I'll get her
(I'll get her)
When the time comes
It's all that matters
I'll get her
(I'll get her)
When the time comes
It's all that matters to me
They're all the same

Waiting for the final sign
Now getting anxious
Contemplating for a little while
Never be nervous

I'll get her
(I'll get her)
When the time comes
It's all that matters
I'll get her
(I'll get her)
When the time comes
It's all that matters to me
They're all the same

I'll get her
(I'll get her)
When the time comes
It's all that matters
I'll get her
(I'll get her)
When the time comes
It's all that matters to me
They're all the same
