

## Flesh And Blood

### No Innocent Victim

Can't you see our hearts  
We don't come here to fight or settle score  
So get it out of your head  
That you'll finish it out there on the floor  
We don't fight flesh and blood  
We're fight spiritual powers  
We don't fight flesh and blood  
We're fighting the powers unseen  
Why meddle in vain arguments  
Our war's not against people or a man  
But the spirit behind a dark agenda  
Is the real battle that we have at hand  
We're not here for a physical battle  
We're not here for a fist hurling brawl  
Our fight begins when we wake up every morning  
And with His strength  
Not ours  
We will win this war  
Flesh and blood- we don't fight
