

## Secret Handshake

No Knife

i don't believe that they know it's time  
so up to speed but too far to see behind

it's so beat on both ends  
and what possesses you to pretend?  
once tasted, farewell  
time to appreciate myself

the hanging wall is moving,  
proving me wrong  
but what started out as nothing  
it seems is gone  
and if a question's only  
something in your head to bring along...
