

Shame

No Omega

It's never been this easy to tell
that you're pouring gas over gas over Metropolis
you want it all to burn
it's black and white
i'm ashamed to be the same as you
to carry your blood
as we bow down to the heavens
crashing down on every light of life
a shitty snapshot of a world i could barely bother with
for all i care
ruin it all you want
just keep taking and taking
FUUUUUUUUUUUUUUUUUUUUUUCK IT
i hope you're ready to dig graves
because that's where we're heading
eager to die
are you eager to die?
