

## Take It Or Leave It

**No Warning**

A moment a look and its fucking gone.  
The story of my fucking life.  
I see others so close together  
And I'm left to look with a fucking mirror.  
Look but no touch.  
I see this shit and I lose my cool.  
Life is looking endless and I'm here looking alone.

Time will tell me if this is the way it goes.  
Because how the fuck am I supposed to know.  
A losing streak and a lame excuse is way I walk away from you.  
A chance I don't want to take, a choice I don't want to make.  
Timing is everything and I won't make the same mistakes.  
Flying with broken wings  
And I didn't think I had what it takes. fuck you.
