

Morning

NOA

Monday morning and you tell me: Waking up beside you is living
in style I feel the sun caressing, softly through the shades, a
nd For no particular reason, I think I'm gonna smile!

Wake up, sweetie, wake up! (That's just what you tell me) Sleepy
, sleepyhead, Your eyes are still afloat And the radio carries
on in the holy language About a million traffic jams from Risho
n to Ganot

There's a little song playing as the day begins Bright and clea
r Any minute now the news God I hope today well hear Good morni
ng, good morning, yeah..

Listen, I've decided (That's just what you tell me) Both of us
are going, but not to work, hurrah! We could check the water le
vel of the sea of Galilee Or make a run for chocolate-
milk Down in Yotvata

There's a little song playing as the day begins Bright and clea
r Any minute now the news God I hope today well hear Good morni
ng, good morning

Let's take the dusty charade Our heartache and longing still st
uck on her glass We can take it slowly, for history's before us
What good would it do us to speed by the past?

There's a little song playing as the day begins Bright and clea
r Any minute now the news God I hope today well hear Good morni
ng, good morning, yeah! Good morning!
