Every moment we decide
What to open, what to hide
Every moment we decide
How to live our lives

Every moment we can learn How to better understand Who to follow, where to turn How to find a friend

I'll wrap it with love
Every day and night
Wrap it up with love
Watch it fill with light
Wrap it up with love
Every way is right .

Wrap it up with love, love, love..

Every moment we grow old Trust in no one, so were told I won't live my life in fear Rather disappear

Wrap it up with love
Every day and night
Wrap it up with love
Watch it fill with light
Wrap it up with love
Every way is right

Wrap it up with love, love, love...
