

All Through the Night

Noah and the Whale

All through the night is only dead end
We run and hide, oh we just pretend.
We live the lives, the lives of others
All through the night, the lives of others.

Oh, you didn't think so, honey,
Oh, you didn't think so.
Oh, you didn't think so, honey,
Oh, you didn't think so.

We wanted a light but we don't wanna pay
Why would we work for we can just stay.
We want the lives, the lives of others,
All through the night, the lives of others.

Are they gonna find us honey,
Are they gonna find us?
Are they gonna find us, honey,
Are they gonna find us?

Oh, you didn't think so, honey,
Oh, you didn't think so.
Oh, you didn't think so, honey,
Oh, you didn't think so.

Oh, every time I look at you
I can't find a single reason
Why I don't believe in you,
There's so much to believe in.

Oh, you didn't think so, honey,
Oh, you didn't think so.
Oh, you didn't think so, honey,
Oh, you didn't think so.
