

## Just Me Before We Met

Noah and the Whale

But that's just me, before we met  
But that's just me, before we met

Well I've always had a wild imagination  
And a see through heart  
Which I know can be, a wild combination  
Like a flame forms from a spark  
But don't be shy, be brave little champion  
It's better to live than to hide

Well that's just me, before we met  
Well that's just me, before we met

But don't be shy, be brave little champion  
Well that's just me, before we met  
But don't be shy, be brave little champion  
Well that's just me, before we met  
But don't be shy, be brave little champion  
Well that's just me, before we met  
But don't be shy, be brave little champion  
Well that's just me, before we met  
But don't be shy, be brave little champion  
Well that's just me, before we met  
Well that's just me, before we met  
Well that's just me, before we met.
