

# I Need A Woman

Noah Gundersen

Candy box hotel in Europe  
Found a couple hours on my own  
I should be going out but I can't do it  
Lately I just need some time alone  
Hope I grow up to be a winner  
Hope that I someday understand  
The space between the man and the mirror  
I've been trying but I don't think I can

I need a woman  
To hold my hand  
To make me feel  
More like a man  
I need a woman  
It's sad but true  
I need a woman

You can build yourself a heart like a basement  
Trust me that is easier to do  
And then that fire comes it's safer I admit it  
Block out all the light that makes it true  
Oh but your start to lose your vision  
Huddled in the dark behind the door  
And when you feel that chill come cold and bitter  
You remember what that fire was for

I need a woman  
To hold my hand  
To make me feel  
More like a man  
I need a woman  
It's sad but true  
I need a woman

I need a woman
