

# Flames

## Nocturnal Rites

Today I met myself  
On a road that lead to somewhere  
Far away from here

I listened when I spoke  
'Bout picking up my halo  
The dues I owe

I know that I can turn around  
But on I go somehow

Flames, burning brighter  
Washing the daylight away  
Flames, my world's on fire  
A beacon to keep me astray  
I light up in flames

When I close my eyes  
I hear this lullaby  
Repeating every night

About who I used to be  
'Bout picking up the pieces  
The little left of me

I know that I can turn around  
But on I go somehow

Flames, burning brighter  
Washing the daylight away  
Flames, my world's on fire  
A beacon to keep me astray  
I light up in flames

Flames, burning brighter  
Washing the daylight away  
Flames, my world's on fire  
A beacon to keep me astray  
I light up in flames

(Flames burn)  
I light up in flames  
(Flames burn)  
I light up in flames
