

# The Ghost Inside Me

## Nocturnal Rites

I never thought I'd stand  
On the edge of the world  
Holding one foot off the ledge  
And I can't believe I'd see  
My life in reverse  
Playing out inside my head

But I lost my compass  
And went astray  
Now I'm drowning in this hole

I'll come alive the day I know  
I've rid all the demons inside  
It never ends, it won't let go  
Till all of my shadows are dead  
And then I'll face the ghost inside me

I never knew I'd crawl  
To the ends of the Earth  
On my bare and bloody knees  
And now I'm numb, can't feel  
Though I know that it hurts  
Like a thousand knives in me

In my darkest hour  
I can't wait  
I just have to face it now

I'll come alive the day I know  
I've rid all the demons inside  
It never ends, it won't let go  
Till all of my shadows are dead  
And then I'll face the ghost inside me

The ghost, the ghost (hey)  
The ghost, the ghost (hey)  
The ghost, the ghost (hey)  
The ghost (hey)

I'll come alive the day I know  
I've rid all the demons inside  
It never ends, it won't let go  
Till all of my shadows are dead

(I'll come alive) come alive  
(The day I know) the day I know  
(Ah, ah)  
It never ends, it won't let go  
Till all of my shadows are dead  
And then I'll face the ghost inside me
