## **Clams Have Feelings Too (Actually They Don't)**

**NOFX** 

Birds are dumb, 'cause small bird brains But so are kids and old people Some birds talk, most others sing I don't see you eat a talking bird

Pigs smell bad, they roll in poo But so do kids and elderly I don't see you chop off an old man's feet Put 'em in a mason jar and pickle them

No chowder for you, 'cause clams have feelings too Actually they don't have central nervousness No manhatten style, clams have the right to smile Come to think about it, they don't have a face

They have no face, no place for ears
There's no clam eyes, to cry clam tears
No spinal cord, they must get bored
Might as well just put them out of misery

I don't beleive it's selfish To eat defenceless shellfish

No chowder for you, clams have feelings too It could happen to you, clams have feelings too I don't think they do, clams have feelings too
