

## Day To Daze

NOFX

I trusted you at least I thought I could  
I tried to believe when you said  
I got a better job I can pay you back real soon. No!  
I don't do those drugs no more  
I know my luck has changed  
My lifestyle has rearranged I'm on my feet

You'll never change your ways  
Living from day to daze  
Why don't you fade away

I've heard all this before  
When you were sleeping on my floor  
You said only for a day  
But as those 3 weeks passed my patience didn't last nor my food
