

## Ditch Effort

NOFX

Living for nothing does not require reason  
Ban no ambition, call it national treason  
I've been outside the cave and told them 'bout the light  
They told me they don't wanna know about it, fuck you and goodn  
ight

We've got a sickness, it's not a moral judgement  
It comes from thickness and 30 year begrudgment  
You end up sighing, it's only STD  
We've all got sickness, but I'm the one with Hepatitis C

I don't need doctors, I don't need treatment  
Need to be treated like a man who's halfway decent  
I told them that I think bad thoughts and I just might  
They told me they don't wanna hear about it, fuck you and goodn  
ight  
Fuck you and goodnight  
Fuck you and goodnight
