

Glass War

NOFX

Glass war, glass war, glass war, glass war
It's a glass war

Glass war, glass war
It's a glass war

Glass war
Glass war

It's a glass war
'Cause you can see right through the bullshit
It's a glass war
'Cause you're all watching on your TV
It's a glass war
'Cause it's made of smoke and mirrors
It's a glass war
It's a glass war

It's a class war
'Cause only poor are gonna die in it
In a gas war
'Cause we know why it was started
It's an ass war
'Cause the president's an asshole
It's an ass war
It's a glass war

It's a cash war
'Cause Halliburton got the contract
A rehash war
Cuz it's over before it started
It's not the last war
Cause the shards are gonna start another glass war
It's a Glass War
It's a Glass war

And the shards are gonna start another glass war
And the shards are gonna start another glass war
And the shards are gonna start another glass war
And the shards are gonna start another glass war
And the shards are gonna start another glass war
It's a glass war
It's a glass war
