I Wanna Be Your Baby

Open your self, let me inside Open your arms, I have nowhere To go, so let me in to you I need to be where nothing can hurt me

Open your legs, to let me crawl Inside of you, I need to be Inside your womb, so take me home Inside of you, envelope me, I'm home

Bringin' me down (2x) I wanna be your baby Bringin' me down (3x) I wanna be your baby Bringin' me down

Open your lips and take me in I need to be inside within Let me become a part of you Let me inside of you, swallow me whole

I want to know the things you hide I want to feel the things you feel I want to breathe the air you breathe I want to live inside of you, take me

Bringin' me down (2x) I wanna be your baby Bringin' me down (3x) I wanna be your baby Bringin' me down

Let me live inside (4x)
