

Liza's had enough of men
She said she won't get burnt again
She says they don't know how to fuck
Her last boyfriend the schmuck
Shared with her a nice disease
Kept her passive on her knees
'til one day she took his car
And drove it to the city

Liza had put down a few
When she met this girl named Lou
Who convinced her to go home with her
She said "My name's Louise
Now, will you take your clothes off please
I wanna take you to the moon and back
So get on your back"

With a flick of the tounge
She made her scream, she made her laugh, she made her dance
She was happy for the first time
And you know, she wanted more

Now with her legs spread wider
She needed to have Louise inside her
She said "I never forget the first time you kissed me
Now I want you to fist me"
Louise didn't need a second invitation
She knew just what to do
Yeah she knew just what to do

Liza had cum a few times before
But she'd never ever seen the door
Into the world of pleasures of the flesh
She felt just like sixteen
And her life before now was a dream
Or even a nightmare, that's over and done
Just like warm healing rays shining from the sun

She made her beam, she made her laugh, she made her dance
She was happy for the first time
And you know, she wanted more
You know, she wanted more
