

One Celled Creature

NOFX

Life on a mattress in a robe,
in a room full of emptiness

Knowledge has much better
uses than self-pitty and superiority

Maybe you are or could be the next Hoffman,
Mahatma, or Chomsky
But no one will ever know

Are you saying music can't have
a positive influence on society?

Not with shitty melody it won't.

A sum of your parts are not gonna
change any hearts
not with hate in your eyes

In order to lead by example you have
to show a path to a better world,
not a cell
