

# Oxy Moronic

NOFX

I've been called an OxyMoron  
Because I question which drugs our war's on  
Why are there more drug stores than liquor stores you can score on  
The healers have become the harmers  
They're just pharmaceutical farmers  
What we used to call dealers  
We now call doctors  
I might be a CD Cynic  
Cause that crack house is now a clinic  
It's time they change the name of the oath to  
The hypocritic or the parasitic

It isn't Adderalltruistic  
By overprescribing  
How can we fight them in a Suboxone ring  
I'll throw a Prozacuzation  
With a Subketamining  
They'll say my fears are Quaaludacris  
They should be Ativanishing

With every Demeroltercation  
They'll have a good Xanaxplanation  
You're just Cialistrated  
Cause we made your dick deflated

It's OxyMoronic  
It's OxyMoronic

It should be doctors getting busted  
For their Klonopinions we trusted  
We're not the sinners, they're the ones  
That served us the Vicodinnners  
I don't want to be an alarmist  
But in that harmacy there's a harmacist  
And those scripts are making us Paximple minded pacifists

It's OxyMoronic  
It's OxyMoronic  
It's OxyMoronic  
It's OxyMoronic

Don't think that I AmBien crazy  
The medical industrial complex  
Keeps us Viagravated and hard to come  
Because of Percosex  
How can we Hydrocondone  
Their blatant misconduct  
They don't care for patients  
They care about pushing product

Are you OxyMoronic  
For wanting your daily chronic  
And making your mom's house hydroponic  
You're OxyMoronic

I've been called an OxyMoron  
For getting my metaphor on

Linoleum is a Flooron  
I'm an OxyMoron

It's time to be alarmed  
We're not being healed, we're being harmed  
Our country's being factory farmed  
It's OxyMoronic  
It's time to sound the alarma  
We can't put our faith in karma  
We got a common enemy  
And they're called Big Pharma

And it's OxyMoronic  
And it's OxyMoronic  
It's all OxyMoronic  
It's all OxyMoronic

- Daily chronic, now most of your house is, okay  
- "Most of your house is" what does that even mean?  
- He's turned most of his house into hydroponic  
- Why wouldn't he have turned all of it into hydroponic?  
- Well cause he lives there  
- "Now all of your house is hydroponic"  
"Most" is sappy. Really, it's like saying "maybe".  
- How about "Now your mom's house is hydroponic"?  
- Yes! That's fucking way better  
God, you fucking woke up  
Come on, Mike, where you've been?  
- Shut the fuck up, fool  
- Where you've been all month?
