

# Please Play This Song On The Radio

NOFX

1. We wrote this song, it's not too short it's not too long  
it's got backup vocals in just the right places  
it's got a few oohs and ahhs and it takes a little pause  
just before I sing the second chorus

R: Please play this song on the radio

2. Almost every line is sung in time and almost every verse ends in a rhyme  
only problem we had was writing enough words  
ooh ahh...  
but that's OK cause the chorus is comin up again now

R: Please... (2x)

(solo)  
(I don't know it, you can improvise)

R: Please...

3. Right about this time some shithead will be drawin a fat fuckin line  
over the title on the backsleeve, what an asshole!  
so mr. DJ i hope you already made your segway  
or the FCC is gonna take a shit right on your head

R: Can't play this song on the radio...
