

Please Play This Song On The Radio

NOFX

1. We wrote this song, it's not too short it's not too long
it's got backup vocals in just the right places
it's got a few oohs and ahhs and it takes a little pause
just before I sing the second chorus

R: Please play this song on the radio

2. Almost every line is sung in time and almost every verse ends
in a rhyme
only problem we had was writing enough words
ooh ahh...
but that's OK cause the chorus is comin up again now

R: Please... (2x)

(solo)
(I don't know it, you can improvise)

R: Please...

3. Right about this time some shithead will be drawin a fat fuckin
line
over the title on the backsleeve, what an asshole!
so mr. DJ i hope you already made your segway
or the FCC is gonna take a shit right on your head

R: Can't play this song on the radio...
