

Six Pack Girls

NOFX

Gonna find some girls tonight
My friday night has washed away
Beer bong has me wandering around
The girls that look like drugs and alcohol

Six pack girls,
Six pack girls
Six pack girls
Six pack

So you pick her up and you bring her home
And you think about it for a while
Wake up the next morning and sure enough
It's not two girls!

Go to work, and then go to bed your friday night,
Has washed away your bummed out,
About your work 'cause you've already put in,
Your thousand hours they're all

Six pack girls,
They're all six pack girls,
They're all six pack girls,
Six pack

So you pick her up,
And you bring her home
You take her out,
And that's all you're alone,
And you want it sure
Enough your, stuck with her they're all

Six pack girls,
They're all six pack girls,
They're all six pack girls,
Six pack
