

## Six Pack Girls

NOFX

Gonna find some girls tonight  
My friday night has washed away  
Beer bong has me wandering around  
The girls that look like drugs and alcohol

Six pack girls,  
Six pack girls  
Six pack girls  
Six pack

So you pick her up and you bring her home  
And you think about it for a while  
Wake up the next morning and sure enough  
It's not two girls!

Go to work, and then go to bed your friday night,  
Has washed away your bummed out,  
About your work 'cause you've already put in,  
Your thousand hours they're all

Six pack girls,  
They're all six pack girls,  
They're all six pack girls,  
Six pack

So you pick her up,  
And you bring her home  
You take her out,  
And that's all you're alone,  
And you want it sure  
Enough your, stuck with her they're all

Six pack girls,  
They're all six pack girls,  
They're all six pack girls,  
Six pack
