

## Back To You

Noir Désir

You remain back to your land  
I need your magic again  
Back to you, back to you

Well, i'll be down in your soul  
Is my shooting star alone?  
Back to you, back to you

No fear, no crash, no boredom

Still, there's no limits around  
Back to you, back to you  
Back to you, back to you

Hot rain, hot rain  
No pain, no pain  
Always back to you  
Always back to you  
Always back to you  
Always back to you
