

## Here It Comes Slowly

Noir Désir

crawling like a thunder slug  
now it smells like a war drug

here it comes slowly  
here it comes slowly

deeply buried in the bowels  
now it spruts out of the wells

here it comes slowly  
here it comes slowly

we can keep that beast away it still lays in its gore  
we'll never stand fascism anymore  
no way out no miracle, just stop it in your blood  
has your neighbour really understood?!

we all wallow in dirt  
but there's shadow to hurt  
crawling like a thunder slug  
now it smells like a war drug  
deeply buried in the bowels  
now it spruts out of the wells  
sad shit flowing to the skin  
no one forget what you mean  
if it grows up like a death tree  
why don't we beat it down here and now?
