Beat of My Heart

Noisettes

There a boy I like south of the river That doesn't leave his house the morning up till noon Not even when the flowers are in bloom

We could take a stroll or just share, you know I just want to be your lady, oh come home soon They say I'm a fool

I'm standing in the cold without a coat, but I just won't go down, down, down Down down

Let me show you the beat of my heart Let it start, let it start Let me show you the beat of my heart Let it start, let it start

Maybe the stars will go our way Lover, I will never ever let you strain And I hope to see you some day

We could watch the night sky fade to blue Listen to your heart And maybe you will break through Breaking the rules

Even though I'm standing in the rain without a coat, but I just won't go down, down, down Down down down

Let me show you the beat of my heart Let it start, let it start Let me show you the beat of my heart Let it start, let it star

Come and get the keys to my heart Let it start, let it start Let me show you the beat of my heart Let it start, let it star

Slowly show you the beat of my heart Let it start, just let it start Let me show you the beat of my heart Let it start, let it start

And you could be the first time I need a chart Just let it start, let it start Let me show you the beat of my heart Let it start, let it star

Do let's show you the beat of my heart I just won't go down, down, no, down Down down
