## Nomans Land

Hail, dragons of the sea!  
That sprouted by s dread  
Wood of spears, covered by fame  
Not once you tore vermin meat

Enough for you in foreign lands  
To wander behind alien table to  
Sit strange song to listen  
You come back home

You see at home bread  
Is tasty and feet by ground  
Easy go, where the glory yours  
For hundred leagues files before you

In battle are invincible  
Not one dissected wolves belly  
Each step yours here legend  
Each feat yours here song.
