

## War Song

Nomans Land

Swords entrusting  
In battle mighty  
The boldness is better  
On ting of armours

Northern wind carries  
Pain and death  
Cold and horror  
Initiate a deal

Song of war is a voice of glory  
No one will ever stop it  
Warrior of a Northern wind  
Song of war is your depth

Warrior of a Northern wind  
Your scream is a voice of glory  
Warrior of a Northern wind  
Your sword and hands are gory

No one can stop great Northern wind  
Who brings pain and death  
Horror and cold go over the lands  
Wolf screams the song of war!
