

Blinding light

NoMeansNo

Blind, white
Roaring light
The eye of god
Ripping through the night
Now i know
Now i see
A fire of faith
Is consuming me

Light is falling from the sky
Blinding light
Jerusalem
Jerusalem
Bless us all
The holy men
In my faith
I am a sword
In my faith
I serve the lord

Light is falling from the sky
Blinding light

God is great
God is great
He is the wind that roars
And the ground that shakes
The earth's a filthy lying whore
God is love
God is war

Light is falling from the sky
Blinding light
