Canada is pissed

NoMeansNo

Well, we settled in and all lived hand to mouth Pooled our guns and beat the boys down south Felt so proud, we got our own country We got it on sale from a bloody company

Canada is Pissed
We'll fade and won't be missed
Our country got so poor
When the people are so rich

Well, we bribed the west and the north was in the bag Can't see why we all don't love our flag Varies immigrants and the native plea To the anglos and the francos we're one big minority

Canada is Pissed
We'll fade and won't be missed
Our country got so poor
When the people are so rich

We're pissed, we're tanked, we're smashed on all the glut We've chug-a-lugged ourselves into a rut We got lots and sell it oh, so cheaply Then buy it back and pay it through the teeth

Canada is Pissed
We'll fade and won't be missed
Our country got so poor
When the people are so rich
