

## Dark Ages

NoMeansNo

We are living in the, in the dark ages  
Haven't seen some daylight in what seems ages  
All the information is locked far beyond  
Locked in circuits and bathed in silicon  
And we're fast asleep with our dreams seething in

And though all is still we are still breathing  
But it's him in the dark, he makes me null and void  
But it's him in the dark,  
I think I m paranoid  
A world of half-truths, what goes  
Unspoken lines of communication are stripped and broken  
And the dark is cold with hands freezing  
But this deep-freeze seems strangely pleasing  
And the powr-trippers receive facelifts  
And the button-pushers all work night shifts  
And the misdemeanors seem so ghastly while the media punch is s  
o lasting  
And the eastern comrades find out much too late  
And free men are free to subjugate under megashadow, under nine  
to five  
Still it's self-extinction that keeps us alive

We are living in the, in the dark ages haven't seen some daylig  
ht in what seems ages  
All the information is locked far beyond  
Locked in circuits and bathed in silicon  
I don't know go to sleep we are in the dark ages
