

## Predators

NoMeansNo

When we were young we played among the flowers  
And sucked upon the nipples of our motherstits

But now before us all of nature cowers  
Through fear and death we've moulded out relationships

The breeze is blowing lightly through the tree tops  
The sun is out, we're basking in the light of day  
The birds are eating bugs out of our sore spots  
The clouds are drifting as we dream the hours away

But I got restless, felt a little hungry  
So I jumped into my car  
Did not go far  
Found a parking spot  
And got out for a walk  
Using my eyes, using my ears  
I'm walking I'm smelling  
I'm walking I'm smelling  
Something's cooking  
I smell something cooking  
Something's cooking  
I smell something cooking  
It's running, but I'm faster  
It's jumping that's what I'm after

There's new life for us to eat  
I prey on the young and weak  
There's new life for us to eat  
I prey on the young and weak

What's your problem, life's a breeze  
First you run and then you eat

The pavement's bubbling tar along the runway  
The purring of our engines drives the birds away  
A thousand voices cry in the arena  
A thousand voices cry with just one thing to say  
When we were young the world was like a vision  
The colours and the sounds they look out breath away  
But now we watch it all on television  
While eating processed meat off of a plastic tray

But I got restless felt a little hungry  
So I jumped into my car  
Did not go far  
Found a parking spot  
And jumped out for a walk  
Using my eyes, using my ears  
I'm walking I'm smelling  
I'm walking I'm smelling  
Something's cooking  
I smell something cooking  
Something's cooking  
I smell something cooking  
It's running, but I'm faster  
It's jumping that's what I'm after

There's - life for us to eat  
I prey an the young und weak  
There's new life for us to out  
I prey on the young und weakk

Life is simple, here's the key  
First you rest and then you feed

We're Predators  
We're Predators you and I  
I have no blood on my hands  
I have blood on my teeth  
Relish
