

# Dead man walking

Nomy

In the silence on the street  
in a town of concrete  
there's a man all alone  
in the gutter

So sail away through the oceans of people  
The river of blood has dried out

Lets line up the sinners and send them to hell  
there's a man in that line you know well

In the silence of the rain  
there's a sound from his chain  
but he knew where he'd go  
when they found her

Oh my lord if you can hear  
there's man that you fear  
and he's coming your way  
as a gunner

So bring your stones and you can judge him tomorrow  
Lets get you a river of blood

The smile on the people when they're looking at you  
Theres a Devil in all of them too

In the silence of the rain  
there's a sound from his chain  
but he knew where he'd go  
when they found her

Oh my lord if you can hear  
there's man that you fear  
and he's coming your way  
as a gunner

And he laughs all the way  
cuz he's dying today  
Its a part of his plan, Diane

There's a dead man walking around you  
in the city with no undo  
in the city with all of you  
There's a dead man

In the silence of the rain  
there's a sound from his chain  
but he knew where he'd go  
when they found her

Oh my lord if you can hear  
there's man that you fear  
and he's coming your way  
as a gunner
