

Freakshow Part 3

Nomy

All of you dragging me down
Lying on the floor with a loaded gun
Same voice talking to me
Wondering what my next move is going to be

Endless pain night and day
Won't you come little child and make it go away
Follow me down in the dark
And I'll give you a life in a dying ark

All these creatures in my head
Tricked your child and now she's dead
Voices voices please shut up
End this freakshow make it stop

I'm not insane, just looking like a scarecrow
Not insane just a part of my freakshow
Don't call me insane

All of you pointing at me
Come on all in and I'll let you see
My life strapped in chains
Feels like the devil crawling in my veins

All my creatures dance around
And they scream with smile when they pull me down
Broken nails against my wall
Follow me down and I'll show you all

All these creatures in my head
Tricked your child and now she's dead
Voices voices please shut up
End this freakshow make it stop

I'm not insane, just looking like a scarecrow
Not insane just a part of my freakshow
Don't call me insane

Sitting in the dark and you're trying to see
If you are alone in the room
You can hear the sound of crying boy
Suddenly it ends with a scream

Don't call me insane
I'm not insane

I'm not insane, just looking like a scarecrow
Not insane just a part of my freakshow
Don't call me insane
