

# Freakshow

Nomy

Would you hold me if I'm empty  
Would you care if I was lost  
Would you love me if I'm guilty  
No matter what it cost

Would you use your knife against me  
Would you cut me just to see  
If I would go to heaven  
But that remains to see

So welcome to my freakshow  
This is who I am  
Part of me is empty  
But I am still a man

So use your imagination  
And take a look around  
This is my creation  
This is what you found

Welcome to my freakshow  
You may never leave  
This is everything I know  
For your's is hard to believe

Would you kiss me when I bleed  
Would you see or close my eyes  
Cuz' I won't live forever  
Creatures made by lies

So welcome to my freakshow  
You are in my head  
It's empty when I sleep  
And I'm dying in my bed

Welcome to my freakshow  
This is who I am  
Part of me is empty  
But I am still a man

So use your imagination  
And take a look around  
You are in my dream now  
This is what you found

Every situation  
It isn't real, it is a game  
It's my disposition  
I can't feel no shame

I try to understand them  
I try to ask them why  
Why they are inside me  
No matter what I try

I can't sleep  
Everything makes me fall

I can't think  
Cuz' of you, dreams come true

Welcome to my freakshow  
This is who I am  
Part of me is empty  
But I am still a man

So use your imagination  
And take a look around  
You are in my dream now  
This is what you found

Is it you or is it me  
Am I blind or can I see  
Do you know what I can dream  
Can you break my self esteem

Can you pull me through the sky  
Would it end if I would die  
Can you carry me along  
In peace where I belong

Welcome to my freakshow  
This is who I am  
Part of me is empty  
But I am still a man

So use your imagination  
And take a look around  
You are in my dream now  
This is what you found

Ooh  
Welcome to my freakshow  
This is who I am  
Part of me is empty  
But I am still a man

Welcome to my freakshow  
This is who I am  
Part of me is empty  
But I am still a man
