

I can take it slow

Nomy

I meet you everyday for work out
we've been going for years

We both have girls that we dont care about
My friend, I know they talk a lot

We're trying to find the best solution
But we're to scared to face the real conclusion

the days keeps passing by
we're living in a lie

Some day
I'll say
We're giving it a try

Meet me half way
cause Im reaching out for you tonight my friend
I'll take it slow on this rodeo

We can cuddle all night
I can hold you so tight
I can tickle your back
while you're playing with my sack

we dont have to feel bad
well the girls might be sad
Tonight its you and I
I'll go gently if we try

I can take it slow baby lets go

Your not ready to hold my hand
man I can understand
If we're in public then we're just friends
oh God I miss your hands

we giggle and jumping down the street now
cause last night we connected some how

The flirting still goes on
we're men and we are strong

Some day
we'll say
Girls are always doing it wrong

Hold me When it's getting cold
your girlfriend is getting old

Hold me when Im down and blue
Cause I love you and you and you and you and you
