

I killed you a thousand times

Nomy

I heard a thousand lies
When it was you and me
I killed you thousand times
In my fantasy

When I saw you die every fucking time
I can finally take back what is mine

And when I saw you die every fucking time
All the love you gave was just a lie
So I leave you here in the hands of god
Because you made my life so fucking hard

I gave you thousand tries
When it was you and me
But you were just a lie
In reality
