

Long way down

Nomy

It's a long way down
And nobody wants to join you
And it's a lonely sound when you're on the ground
But you can stop it if you want to

And it's lonely life
You've wasted everyone you wanted
And everybody knows you now
And everybody knows you're hated

I'm never going to die with you
You're never going to die with me
This is how it's going to be
A complication between you and
Because I never going to die with you

It's a long way back it's a long way back
And nobody wants to see you
And it's a lonely day when they'll make you pay
And I can't stop it when you want to

And it's lonely life
You've wasted everyone you wanted
If you call my name in the middle of the night
That's the best way of putting up a fight
