It's a long way down
And nobody wants to join you
And it's a lonely sound when you're on the ground
But you can stop it if you want to

And it's lonely life You've wasted everyone you wanted And everybody knows you now And everybody knows you're hated

I'm never going to die with you
You're never going to die with me
This is how it's going to be
A complication between you and
Because I never going to die with you

It's a long way back it's a long way back
And nobody wants to see you
And it's a lonely day when they'll make you pay
And I can't stop it when you want to

And it's lonely life You've wasted everyone you wanted If you call my name in the middle of the night That's the best way of putting up a fight
