

## On my grave

Nomy

There will be no flag on my grave  
They'll say I missbehaved  
They'll dig me down for good  
oh yeah

There will be no flag on my grave  
cause I was not that brave  
They'll say I could'nt kill my enemy

But the pain I handled inside I laid it on you  
You killed it to  
And the guilt for all that I've done I laid it on you

I'll be the one, Im comming home , just be there waiting for me  
The time is now My only god my everything

There will be a day when they will see yeah you will grant them  
clarity  
You made me live you made me die you made me rise

There will be no flag on my grave  
Cause I was not a slave  
My faith is all I ever had to use

There will be no one at my grave  
Only jesus inside of me Holding me  
Whisper that I'm finally free

I'll be the one to die now
