

## Something Different

Nomy

Today I found something else in my life  
Today I saw something new to describe  
Today I saw I saw you die all alone

But the sun won't shine when you are not around that's a sign  
And the moon won't smile if you would close your eyes

Take my words to your heart that's what I give  
Take my pain to your mind Let it live

Today I felt different to because of you  
And I won't fall asleep without you that's different to
