

This is not a love song

Nomy

You don't feel like going on
Standing here now what is wrong
You don't feel like going on
After all I had is gone

Take me down just take me down
Now I know you've been around
Take me down just take me down
Why don't you put me to the ground

Got the news on mail today
Seems to me we're not ok
You said I'm done and you'll take the car
But still you left the frames on the wall

Got the news on mail today
You said I'm broke you'll walk away
You want the card to use until it ends
You said you slept around with my friends

I found a life right after you
All alone I made it through
And now when I'm up on the road
I'm going places you never showed

I got the news on phone today
Seems to me you're not ok
They found you doing drugs in your car
I told them I don't know who you are

I don't feel like going on
Standing strong now moving on
I don't feel like going on
After all I had is gone
