

# Nothing To Do When You're Locked Away In A Vacancy

None More Black

Shooting, fleeting  
Get onto the set at night  
Play it and repeat it  
If you don't then the people won't get it tonight  
Scripted, heard it  
Don't it just sound so right?  
Scare tactics  
The headlines are keeping us up tonight  
And they'll scare us all

Shut your windows and lock all your doors  
Choke on it

It's something you won't want to miss  
Exaggerated story lines  
You can't dismiss no  
If you don't watch you might die  
Struggles, trust me they won't subside  
Until something hotter  
Just burns through the night  
And they'll scare us all

Shut your windows and lock all your doors  
Choke on it
