

Pumpin Blood

NONONO

1. Hey heart, on the road again
Moving on forward
Stick and stones won't break our bones
We're in the car on the highway
It's so magical feeling that no one's got a hold
You're a chalice to your own happiness you know

R: 'Cause it's your heart, it's alive
It's pumping blood
And it's your heart, it's alive
It's pumping blood
And the whole wide world is whistling!

2. Hey heart, on the run again
Drive is strong onwards
Stick and stones won't take its course
Got the part in a frenzy
It's the best, the world's feeling
Like nothing can go wrong
You're the decider of the world that you will get to know

R:

Hey heart, on the road again
On a highway, on a highway
Hey, heart, on the road again
On a highway, on a highway

R:
