

## When It's Over

Nonpoint

I gotta go before i lose my mind  
I cant explain it or name it this time  
You bring the lightning and the thunder that I drop  
And keep complaining that the rain won't stop

I dont wanna waste the life you got  
Fixing all the that just dont work  
Working for the thing that I dont want  
Chasing all the things that i dont want

Feels like i don't belong  
Like someone's singing the wrong song  
Who says when it's over (it's over, it's over)

Who is the one in control am i the one in control?  
Who says when it's over (it's over, it's over)

You could see that i was losing touch  
I couldnt say it but you were too much  
You needed something that i never really had and keep complaini  
ng that i always get mad

I dont wanna be the one you want  
Doing all the things that piss you off  
Fighting for life that i dont want  
Chasing what I know i just dont want

Feels like i don't belong  
Like someone's singing the wrong song  
Who says when it's over (it's over, it's over)  
Who is the one in control am i the one in control?

Who says when it's over (it's over, it's over)  
Whos the one in control  
Am i the one in control of it all  
Whos the one in control  
Am i the one in control of it all  
Am i the one in control of it all

Feels like i don't belong  
Like someone's singing the wrong song  
Who says when it's over (it's over, it's over)  
Who is the one in control am i the one in control?  
Who says when it's over (it's over, it's over)
